

INGATHERING – Hope for Humanity

Church Reversion Policy Kentucky-Tennessee Conference

According to Guidelines voted by the North American Division, Ingathering Funds will be distributed as follows:

- 40% will be used for international projects
- 10% will go to the North American Division to be used for Disaster Relief, and other projects in inner cities and disadvantaged areas.
- 25% will go to the local conference for conference-wide Community Services and/or Disaster Response projects.
- 25% may be returned to local churches according to established guidelines, for accredited Community Services or Projects.**

Guidelines

- Churches in the Kentucky-Tennessee Conference may request Ingathering Reversion funds for local projects and services using the Reversion Application form. (A Request Form is provided by the Conference ACS Department).
- The local church may receive **up to 25%** of the previous year's Ingathering total for the church for **accredited** projects.
- The local Community Services Center or Unit must submit an Annual Report for the previous year to the appropriate entities (Local Conference, Union, and NAD).
- Funds must be used for specific projects that are designed to **benefit the community** in some way. A partial listing of accredited projects is on the next page.
- Funds should be kept separate from other local ACS funds and used only for project(s) approved by the Conference Administration.
- Use of Ingathering Reversion funds received is subject to audit.
- Surplus funds (funds not distributed to local churches any given year) will be placed in a separate fund at the conference to be used for pilot/experimental Community Service projects where extra funds are needed.

Qualifying Projects - *If your project is not listed, please contact the Conference ACS Director for approval.*
